5 pm - 7 pm (MST)

Presentation Time - 5:30 pm

The general public is invited to attend an informational meeting about potential improvements to State Route (SR) 90 and SR 92 between Campus Drive and Glenn Road/Kachina Trail in Sierra Vista (map at left). The Arizona Department of Transportation (ADOT), in cooperation with the Federal Highway Administration (FHWA), will study SR 90 and SR 92 from milepost (MP) 321.0 on SR 90 (approximately 0.5 mile north of the SR 90/92 intersection), south to MP 325.2 on SR 92.

The study will identify the types of improvements needed to accommodate projected traffic volumes in 2035, such as constructing additional lanes and implementing access management in the study area, and will evaluate the environmental impacts that would result from constructing the improvements.

The purpose of the meeting is to gather public input on issues, concerns, and opportunities to be considered during the study. The input received from this meeting will be used to help develop and evaluate alternatives and form the basis of the environmental analysis. Representatives from ADOT, FHWA, and engineering consultants will be present to answer your questions and address your concerns. Map displays will be available for viewing.
